A Prominent Physician's Advice.

"Eat good foods and plenty of them. Dieting, to many cause is almost criminal. Get back to normal. To do so you must have toe proper quantity of nourishment. You need it for brain or physical work. Probably there is nothing the matter with your stomach except acidity. That is merely an abnormal accretion of acid in the stomach. Neutralize that acid and your stomach trouble will end at once. Neglect may mean alters of the stomach. Do not take patented medicines or popsin tablets for dyspepsia. Simply take a neutralizer of seid. Becidedly the best neutralizer is ordinary blaurated magnetic. It is inexpensive and you can get it at any drug store. Take a teaspoonful in a quarter glass of water after each next The relief will be immediate."—Advertisement.
